ESTONIAN WEATHER BULLETINS
25 MARCH - 3 JUNE 1950

Sovetskaya Estoniya, No 73, 25 Mar 50

On 24 March, the republic had a scattered cloud cover, but no precipi-
tation. Some frost was noticed during the night.

In the next 2 - 3 days, cloudy weather, intermittently clearing, with-
out precipitation is expected. There will be fog in places. The southwest
and west wind will be light to moderate, and at times fresh along the shore-
line. Night temperature will be zero to one degree above zero; daytime tem-
perature 4 - 8 degrees above zero. (All temperature readings are centigrade.)

Sovetskaya Estoniya, No 86, 9 Apr 50

On 8 April, weather in the republic was moderately warm and dry with
light winds. Morning fog was noticed in some places. Night temperature
dropped to 2-4 degrees below zero. At noon the temperature was one degree
above zero in Khaapsalu; 2 degrees above zero in Pyarnu; 5 degrees above
zero in Tartu and on the islands; 6 degrees above zero in Vil'yandi and
Vyru; and 7 degrees above zero in Tallin, Narva, and Valga.

In the next 2 - 3 days, the weather is expected to remain predominantly
dry and warm with scattered cloud cover. The south wind will increase in
velocity and the temperature will rise to 10 - 15 degrees above zero.

Sovetskaya Estoniya, No 88, 12 Apr 50

On 11 April, the central areas of the republic became less cloudy and
precipitation ceased. The temperature at noon was 2 degrees above zero in
Mustvee and on Khyyu and Saare Islands; 6 degrees above zero in Tallin,
Pyarnu, and Vil'yandi; 7 degrees above zero in Valga, Vyru, and Tartu; and
8 degrees above zero in Narva and Khaapsalu.

50X1-HUM

In the next 2 - 3 days, the weather is expected to be unstable and cloudy, followed by brief showers and intermittent clearing. The south and southwest wind will be moderate to strong. Night temperature will be 3 - 6 degrees above zero; day temperature 10 - 15 degrees above zero.

Sovetskaya Estoniya, No 95, 20 Apr 50

Slight cloudiness predominated on 19 April. Light showers fell during the night. The temperature at 12 midnight was 5 degrees above zero on Saare Island; 6 above on Mukhu; 7 above on Khivu; 9 above in Valga; 10 above in Vyr and Khaapsalu; 11 above in Tallin, Narva, Tartu, and Viljandi; and 12 degrees above in Tyuri.

In the next 2 - 3 days, warm weather with scattered cloud cover and slight precipitation is expected to continue. The south and southwest wind will be light to moderate and fresh along the shoreline. Night temperature will be 2 - 6 degrees above zero; daytime temperature 10 - 15 degrees above zero.

Sovetskaya Estoniya, No 96, 21 Apr 50

In the next 2 - 3 days, the weather is expected to remain warm with slight and moderate cloudiness, predominantly without precipitation. The wind will be light to moderate. Night temperature will be zero to 6 degrees above zero; daytime temperature 10 - 15 degrees above zero.

Sovetskaya Estoniya, No 97, 22 Apr 50

In the next 2 - 3 days, weather in the republic will be alternately cloudy and clear with brief showers in some places. Thunderstorms may occur, primarily in the southern areas. The wind will be light to moderate. Night temperature will be 2 - 6 degrees above; daytime temperature 10 - 15 above zero.

Sovetskaya Estoniya, No 99, 25 Apr 50

In the next few days, weather is expected to be cloudy with rain and fog in some places and with intermittent clearing. The wind will be light to moderate. Night temperature will be 3 - 6 degrees above zero; daytime temperature 11 - 17 degrees above zero.

Sovetskaya Estoniya, No 100, 26 Apr 50

On 25 April, weather in the republic was predominantly cloudy, clearing intermittently. Thundershowers occurred nearly everywhere during the day.

In the next 2 - 3 days, cloudy weather with prolonged clearing is to be expected. Precipitation will cease; fog will occur in places. The wind will be light to moderate, and at times fresh along the shoreline. Night temperature will be 2 - 6 degrees above zero; daytime temperature 10 - 15 degrees above zero.

Sovetskaya Estoniya, No 101, 27 Apr 50

In the next few days, weather in the republic will be slightly to moderately cloudy. Brief rains will fall in some places. The wind will be light to moderate, and at times fresh along the shoreline. Night temperature will be 2 - 6 degrees above zero; daytime temperature 11 - 17 degrees above zero. There will be fog in places.

Sovetskaya Estoniya, No 102, 28 Apr 50

On 27 April, weather in the republic was predominantly cloudy. Short thundershowers occurred in some places. Fog was noticed in areas along the shoreline.

In the next few days, weather in the republic is expected to be cloudy with prolonged clearing. Showers will fall in some places. The wind will be light to moderate, and at times fresh along the shoreline. Night temperature will be 2 - 6 degrees above zero; daytime temperature 11 - 17 degrees above zero. There will be fog in some places.

Sovetskaya Estoniya, No 103, 29 Apr 50

On 28 April, weather in the republic was cloudy followed by light rains in some areas and intermittent clearing. Winds were light to moderate, and during the daytime fresh along the shoreline. Some places had morning fog. At noon, the temperature was 4 degrees above zero on Mukhu Island; 5 degrees above on Khiyu Island; 6 degrees above on Saare Island and in Khaapsalu; Pyarnu, and Vil'yandi; 7 degrees above in Tartu and Tallin; and 8 degrees above zero in Valga and Narva.

In the next few days, weather in the republic is expected to be cloudy with prolonged clearing during the afternoons and evenings. Brief showers will fall in some places. There will be a southwest wind, light to moderate, and at times fresh along the shoreline. Night temperature will be zero to 5 degrees above zero; daytime temperature 9 - 15 degrees above zero. There will be fog in places.

Sovetskaya Estoniya, No 104, 30 Apr 50

In the next 2 - 3 days, weather in the republic is expected to be of varying cloudiness with light local showers and southwest and west, light to moderate, winds. The wind will be fresh along the shoreline. Night temperature will be zero to 5 degrees above zero; daytime temperature will be 10 - 15 degrees above zero.

Sovetskaya Estoniya, No 106, 4 May 50

On 3 May, weather in the republic was warm with scattered cloud cover and light winds. The temperature at 12 noon was 8 degrees above zero in Mustvee; 12 above on Saare Island; 13 degrees in Pyarnu; and 18 degrees above in Tallin, Tartu, Narva, Vyru, and Vil'yandi.

50X1-HUM

No changes in the weather are expected in the next 2 - 3 days. There will be scattered clouds and brief showers, and possibly thundershowers in some places. The south and southwest wind will be light to moderate. Night temperature will be 3 - 6 degrees; daytime temperature 12 - 16 degrees above zero.

Sovetskaya Estoniya, No 107, 5 May 50

The present warm weather is to continue one more day, after which it will grow cooler. Brief showers and possible thundershowers will fall in places. The temperature at night will drop to 2 - 5 degrees above zero; daytime temperature will be 9 - 13 degrees above zero.

Sovetskaya Estoniya, No 108, 6 May 50

Slight cloudiness and dryness with light winds predominated on 5 May. Noon temperature was 12 degrees above zero in Mustvee; 14 above in Tallin; 17 above in Narva; 18 above on Saare and Khiyu Islands; 19 above in Tartu, Vyr, and Khaapsalu; and 20 above in Pyarnu and Valga.

In the next 2 - 3 days, primarily dry weather with moderate cloudiness and light winds is expected to continue. Night temperature will be 3 - 6 degrees above zero; daytime temperature 14 - 18 degrees above.

Sovetskaya Estoniya, No 110, 9 May 50

On 8 May, weather throughout the republic was clear and dry with light winds. Noon temperature was 9 degrees above in Tartu, Vil'yandi, and Vyr; 10 above in Tallin, Pyarnu, and Saare; 11 degrees above in Valga and Khiyu; and 12 degrees above zero in Khaapsalu.

In the next 2 - 3 days, the weather will be predominantly dry and sunny with light winds. Night temperature will be zero to 3 degrees above zero with frosts in places; daytime temperature will be 12 - 16 degrees above zero.

Sovetskaya Estoniya, No 111, 10 May 50

On 9 May, weather in the republic was slightly cloudy and dry with light winds. Night temperature in the eastern, southern, and central regions dropped to zero and to 2 degrees below zero. At noon, the temperature in Tallin, Pyarnu, and Narva was 11 above; in Vyr 12; in Tartu and on Khiyu Island 13 above; in Khaapsalu and Saare Island, Valga, and Mustvee 14 degrees above zero.

During the next 3 days, the weather in the Baltic area will continue to be slightly cloudy and dry with light winds. Night temperature will be zero to 4 degrees above zero; daytime temperature 13 - 16 degrees above zero. Frosts will occur in places during the night.

Sovetskaya Estoniya, No 112, 11 May 50

During the next few days, weather in the republic will be predominantly dry and moderately warm with light winds and moderate cloudiness. Light rain will fall in places. Night temperature will be 4 - 8 degrees above zero; daytime temperature 14 - 17 degrees above zero.

Sovetskaya Estoniya, No 113, 12 May 50

On 11 May, weather in the republic was predominantly dry with a scattered cloud cover and light winds.

In the next few days, a gradual drop in temperature with frosts in some places is to be expected. The weather will be cloudy with intermittent clearing. The north wind will be light with gradual intensification. Night temperature will be one degree below zero to 3 degrees above zero; daytime temperature will be 8 - 13 degrees above zero.

Sovetskaya Estoniya, No 115, 16 May 50

In the next 2 - 3 days, there will be varying cloudiness with moderate wind, but without precipitation. Night temperature will be zero to 5 degrees above zero. In places, especially in the central regions of Estonia, there will be frosts. Daytime temperature will be 10 - 15 degrees above zero.

Sovetskaya Estoniya, No 116, 17 May 50

A scattered cloud cover is expected during the next 2 - 3 days. Some areas will have short periods of precipitation. The northwest wind will be moderate, and at times fresh along the shoreline. Daytime temperature will be 8 - 13 degrees above zero. Night temperature will drop to 2 - 3 degrees below zero in the central and southern areas; the remaining regions will have a temperature of zero to 3 degrees above zero.

Sovetskaya Estoniya, No 117, 18 May 50

In the next 2 - 3 days, there will be a scattered cloud cover with short periods of precipitation in places. The west and northwest wind will be light to moderate, and at times fresh along the shoreline. Night temperature will be 2 degrees below to 2 above zero. There will be ground frosts of 2 - 3 degrees below zero at night. Daytime temperature will be 6 - 12 degrees above zero.

Sovetskaya Estoniya, No 118, 19 May 50

In the next 2 - 3 days, weather in the republic is expected to be cloudy followed by brief showers in some places and intermittent clearing. The wind will be light to moderate. Night temperature will be zero to 5 degrees above zero; daytime temperature 9 - 17 degrees above zero.

Sovetskaya Estoniya, No 119, 20 May 50

On 19 May, weather in the republic was cloudy with rain. At noon, the temperature on Saare and Vormsi islands was 12 degrees above zero; in Tapa 13 above; in Tallin and Mustvee 14 above; in Vil'yandi and on Mukhu Island 15 above; in Tartu 16 above; in Valga 18 above; and in Vyru 19 degrees above zero.

In the next few days, the weather is expected to be cloudy followed by brief showers in places and intermittent clearing. The wind will be light to moderate, and at times fresh along the shoreline. Night temperature will be zero to 7 degrees above zero; daytime temperature 9 - 13 degrees above zero.

Sovetskaya Estoniya, No 121, 23 May 50

On 22 May, weather in the republic was cloudy, clearing intermittently. Brief rains fell in some places. Pyarnu had a thunderstorm. At noon, the temperature was 14 above in Narva; 15 above in Tartu, Tallin, and on Mukhu Island; 16 above on Saare Island; 17 above in Khiyu Island, Khaapsalu, and Pyarnu; 19 above in Vil'yandi; 20 above in Vyru; and 21 degrees above zero in Valga.

In the next few days, no actual changes in the weather are expected. The weather will continue to be cloudy, clearing intermittently. There will be brief showers and possibly thunderstorms in places. The wind will be moderate to light. Night temperature will be 7 - 11 degrees above; daytime temperature 14 - 20 degrees above zero. There will be some fog along the shoreline.

Sovetskaya Estoniya, No 123, 25 May 50

Following a rainy night, the weather cleared on 25 May. The noon temperature was 10 above in Narva and Khiyu Island; 11 above in Mustvee; 12 above in Tallin, Tartu, Vyru, and Vil'yandi; 13 above in Valga, Khaapsalu, and Saare Island; and 14 degrees above zero in Pyarnu.

In the next few days, a scattered cloud cover, primarily without precipitation, is expected. The wind will be light to moderate. Night temperature will be 6 - 10 degrees above zero; daytime temperature, 14 - 19 degrees above zero.

Sovetskaya Estoniya, No 124, 26 May 50

On 25 May, the weather was slightly cloudy with light to moderate winds. The temperature at noon was 9 above in Khaapsalu and on Mukhu Island; 10 above in Tallin; 11 above in Mustvee, Narva, and on Saare and Khiyu Islands; 12 above in Tartu, Pyarnu, Vyru, and Vil'yandi; and 13 degrees above zero in Valga.

In the next 2 - 3 days, slight to moderate cloudiness, predominantly without precipitation, is expected. The northwest wind will be light to moderate, and at times fresh along the shoreline. Night temperature will be 1 - 7 degrees and daytime temperature 12 - 18 degrees above zero.

Sovetskaya Estoniya, No 125, 27 May 50

In the next 2 - 3 days, weather in the republic will be cloudy followed by prolonged clearing without actual precipitation. The wind will be moderate, predominantly from the west and southwest. Night temperature will be 4 - 9 degrees and daytime temperature 14 - 19 degrees above zero.

Sovetskaya Estoniya, No 126, 28 May 50

Varying cloudiness without actual precipitation is expected during the next few days. The wind will be light to moderate, and at times strong along the shoreline. Night temperature will be 2 - 8 degrees and daytime temperature 14 - 20 degrees above zero. There will be fog in places.
